

St. Tammany Levee, Drainage and Conservation District

PRESS RELEASE

At the April 2022 meeting, CPRA presented the findings of the Storm Surge and Risk Modeling Supporting CPRA 2023 Coastal Master Plan Update. **The findings of this study offer crucial insight into future storm surge risk to St. Tammany Parish.**

CPRA's Stu Brown will present the findings of the CPRA modeling at the September 21, 2022, St. Tammany Levee, Drainage and Conservation District Meeting, scheduled for 6:00 pm at Parish Council Chambers Koop Drive. **Please put this event on your calendar.**
