

SUGGESTED REPORT OUTLINE AND DELIVERABLES

13-Mar-18

TITLE

MAP

CHAPTER 1 - INTRODUCTION

Introduction to Project

Planning Areas & Coastal Zone

11"x17"

Summary of the Report and Deliverables

CHAPTER 2, DATA COLLECTION EAST PLANNING AREA

Introduction to East Area

Map delineating drainage basins/sub-basins

11"x17"

Map delineating Slidell, Drainage District and Other Parish

11"x17"

Slidell

Narrative describing Existing Drainage Flood Control Facilities

Map showing major drainage / flood control facilities

11"x17"

Narrative introduction to projects Map

Map showing drainage / flood control / wetlands restoration projects

11"x17"

Project Data Base of Slidell Projects with live links to data sheets

Drainage Districts

Narrative describing Existing Drainage Flood Control Facilities

Map showing major drainage / flood control facilities

11"x17"

Narrative introduction to projects Map

Map showing drainage / flood control / wetlands restoration projects

11"x17"

Project Data Base of Each Drainage District Project with live links to data sheets

Unincorporated St. Tammany outside of Drainage Districts

Narrative describing Existing Drainage Flood Control Facilities

Map showing major drainage / flood control facilities

11"x17"

Narrative introduction to projects Map

Map showing drainage / flood control / wetlands restoration projects

11"x17"

Project Data Base of Each Project with live links to data sheets

CHAPTER 3 - DATA COLLECTION MIDDLE PLANNING AREA

Introduction to Middle Area

Map delineating drainage basins/sub-basins

11"x17"

Delineating Drainage District/s and Other Parish

11"x17"

Drainage Districts

Narrative describing Existing Drainage Flood Control Facilities

Map showing major drainage / flood control facilities

11"x17"

Narrative introduction to projects Map

Map showing drainage / flood control / wetlands restoration projects

11"x17"

Project Data Base of Each Drainage District Projects with live links to data sheets

Unincorporated St. Tammany outside of drainage districts

Narrative describing Existing Drainage Flood Control Facilities

Map showing major drainage / flood control facilities

11"x17"

Narrative introduction to projects Map

Map showing drainage / flood control / wetlands restoration projects

11"x17"

Project Data Base of Each Project with live links to data sheets

CHAPTER 4 - WEST PLANNING AREA

Introduction to West Area

Map delineating drainage basins/sub-basins 11"x17"

Map delineating Mandeville, Madisonville, Drainage District and Other Parish 11"x17"

Mandeville

Narrative describing Existing Drainage Flood Control Facilities

Map showing major drainage / flood control facilities 11"x17"

Narrative introduction to projects Map

Map showing drainage / flood control / wetlands restoration projects 11"x17"

Project Data Base of Mandeville Projects with live links to data sheets

Madisonville

Narrative describing Existing Drainage Flood Control Facilities

Map showing major drainage / flood control facilities 11"x17"

Narrative introduction to projects Map

Map showing drainage / flood control / wetlands restoration projects 11"x17"

Project Data Base of Madisonville Projects with live links to data sheets

Drainage Districts, for each

Narrative describing Existing Drainage Flood Control Facilities

Map showing major drainage / flood control facilities 11"x17"

Narrative introduction to projects Map

Map showing drainage / flood control / wetlands restoration projects 11"x17"

Project Data Base of Each Drainage District Project with live links to data sheets

Unincorporated St. Tammany outside of drainage districts

Narrative describing Existing Drainage Flood Control Facilities

Map showing major drainage / flood control facilities 11"x17"

Narrative introduction to projects Map

Map showing drainage / flood control / wetlands restoration projects 11"x17"

Project Data Base of Each Project with live links to data sheets

DATA STATUS FOR EACH PROJECT

Fact sheet summaries on drainage / flood control wetlands restoration projects

Project Sponsor/Facility Owner

Project Status

Concept

Engineering Study

Design Documents

Construction Started

Construction completed

Funding Status

Project Map

Construction Cost (estimated or actual)

Availability of Support Documents (Status) (With live pdf links to data)

Drainage / Flood Control Studies

H&H models / Coastal Models

Engineering deliverables prepared

Design Documents

geotechnical reports

surveys supporting designs

as-built drawings

GIS Data Base Supporting Above
